About READ 180

Read 180 is a blended learning program designed to help students increase reading proficiency, develop writing skills, and build confidence in themselves and their abilities.

Read 180 lessons consist of four components: whole group learning, small group learning, independent reading, and student application of skills using technology.

Class Expectations

Students are expected to participate and respect others, respect our materials, and respect our classroom environment (online and in-person). Failure to do so will result in lowered participation grades.

During online learning, students are expected to attend Google Meets for whole group and small group instruction. On designated days, students will work independently using the online Read 180 student application to complete online lessons and read a variety of digital texts.

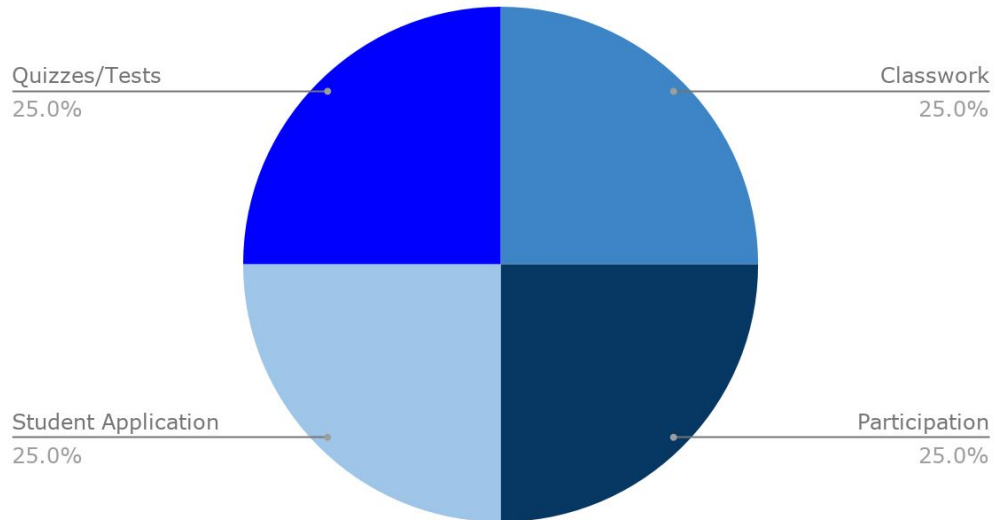

Grading

Participation in whole and small group meetings is very important. It allows me the opportunity to check for understanding and for students to interact with each other.

Classwork will consist of independent reading logs, daily sentence frames, projects, and textbook activities completed during whole and small group work times.

Tests and quizzes will be given periodically to check for proficiency of reading comprehension and skills.

Students will also be graded on the completion of segments within the student application (online). Students are expected to complete 8-12 segments within a school year, which is at least 4 per semester.

Supplies needed for class:

- Chromebook (supplied by school)
- Earbuds/headphones
- Pencils
- Eraser
- A positive attitude
